# LEVEL UP YOUR TECHNIQUE

2024

## KEEP IT UP!

Each fall we see dancers spend at least a month getting back into the swing of classes after taking the summer off. Muscles and brains have to re-learn how to work together to create movement and artistry. What if instead of taking the summer off, you continued taking class and used these two months to train with renewed excitement and determination? Wouldn't you see compound improvement in your ability? We encourage you to push yourself to be a stronger dancer and more passionate artist during these summer months! We can't wait to help you achieve your goals in these weekly classes! Let's level up together!
